CCR No. 96-0903/A	Logged Date 8/2/96	Rev. A	Request Type CCR
Priority Routine <input checked="" type="checkbox"/> Urgent <input type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release		Change Class I I
Title (description) The RTM Component Class Population of Release B MSS Components (PART II of III).			
Documents Affected		Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference Release B MSS Part II of III for AC-96-0367 (Do not Close Action Item until	
RTM Change <input checked="" type="checkbox"/> Start New Baseline <input type="checkbox"/>			
Problem Currently, the Release B MSS design components and their links to Level_4 requirements does not exist in the RTM MAIN. The RTM Component Class should be populated with these and other components of the Release B design and the components linked to the corresponding Level_4 requirements of the Level_4 Class of RTM MAIN. The total number of links between the components and the Level_4s are too numerous to put into one CCR. Therefore, it is suggested that the MSS component load should be divided into three CCRs. Version A of this CCR differ from the original version by deletions of mapping and links for components and Level_4 requirements that are not currently in RTM Version073196.			
Proposed Solution Populate the Component Class of RTM with the Release B MSS components. Then link the components to their corresponding Level_4 requirements of the Level_4 Class. This CCR shall be PART II of Three Parts. . This CCR will load only the components developed by Release B. The Release B Level_4 requirements that reside in RTM will be linked to Release A and Release B components via this CCR.
